

April 9, 2018

TO: ALL PIPELINE, TERMINAL AND CLEANING PLANT OPERATORS

The Alberta Petroleum Marketing Commission is advising all pipeline operators of a reallocation of the Crown Royalty volumes for our Marketing Agent effective for May 2018 production.

The Crown volumes at the following pipelines, terminals and custom treaters will now be managed by Shell Trading Canada:

Gibson Edmonton Condensate Terminal

ABTM0000829 Gibson Edmonton Condensate Terminal (ABTM0000924)

Gibson Edmonton Heavy Terminal

ABTM0000829 Gibson Edmonton Heavy Terminal

Gibson Edmonton Light Terminal

ABTM0000829 Gibson Edmonton Light Terminal (ABTM0000825)
ABCT0081705 Newalta Amelia CT

Gibson Edmonton Sour Terminal

ABTM0000829 Gibson Edmonton Sour Terminal (ABTM0000824)

Gibson Rimbey Terminal

ABTM0000876 Gibson Rimbey Terminal
ABCT0122835 Gibson Rimbey Custom Treater

Attached is an updated pipeline allocation list indicating the pipelines where the Crown volumes are being managed by Shell Trading Canada and those that will continue to be managed by the APMC.

The Crown Agent is responsible for all aspects of shipping the Crown's Royalty share which includes Notices of Shipment and scheduling. The pipeline operator is required to maintain a separate account and reporting for the Crown's Royalty share which includes Form C's, Draft Shipper's Balances (weekly position reports) and Shipper's Balances. The pipeline operator will continue to deliver these documents to the Crown Agent on the specified COLC and Industry Reporting Calendar dates. The pipeline operator will also provide copies of Form C's and draft balances (weekly position reports) to the APMC at CalgScheduling.Energy@gov.ab.ca. Final Shipper's Balances will continue to be submitted to CalgCSB.Energy@gov.ab.ca.

Pipeline operators will continue to provide tariff invoices, equalization statements and single shipper facility net out invoices to only the APMC for financial settlement. Amended shipper's

balances received after the Industry Reporting Calendar deadline will only be accepted with prior approval.

As is the current practice, it is the responsibility of the battery operator to deliver the Crown's Royalty oil to the pipeline or terminal identifying the Crown volume separately. The battery operator will report the forecasted Crown Royalty volumes to the pipeline on the Form A, as well as provide shipper splits to the pipeline, identifying the Crown's volume. The battery operators will report any Form B adjustments on the Crown's Royalty share to the Crown Agent.

We look forward to continuing the cooperative relationship we have enjoyed in the past. If further clarification is required please contact the undersigned at (403) 297-5443.
